Welcome to **GreenScape** Sustainable Packaging Solution

GreenScape International provides a revolutionary sustainable packaging solution that epitomizes the intersection of environmental consciousness and innovative design. Developed as a response to the pressing need for eco-friendly alternatives in the packaging industry, GreenScape goes beyond the conventional norms by offering a comprehensive approach to sustainability. The packaging products are crafted from responsibly sourced, biodegradable materials, ensuring minimal ecological impact from production to disposal.

GreenScape is an Importer & Distributor of biodegradable packaging products in UAE. We are committed to providing eco-friendly alternatives to conventional plastics that are harmful to the environment. We are Eco Friendly Biodegradable Bags & Tableware supplier in UAE. Our products are made from renewable resources, such as cornstarch, Sugarcane Bagasse, Kraft Paper and potato starch, and they are certified compostable and biodegradable.

GreenScape is a testament to the belief that sustainability can coexist with practicality and style. As businesses increasingly seek ways to reduce their carbon footprint, GreenScape emerges as a beacon of hope, embodying a commitment to a greener, more sustainable future for packaging solutions.

MISSION

Our goal is to be a driving force behind environmental sustainability by offering premium range of Biodegradable packaging solution. We are dedicated to providing environmentally friendly substitutes that lessen the harm that single-use plastics cause to the environment, while improving the planet's health for both present and future generations. Our goal is to inspire positive change and make a positive impact on a more sustainable and responsible world via innovation, integrity, and a commitment to environmental stewardship.

VISION

Our purpose is to lead the way in the biodegradable packaging sectors and promote the broad use of environmentally suitable substitutes. In our ideal world, sustainable decisions are valued highly by both individuals and corporations, and our products significantly contribute to the decrease of plastic pollution. We hope to create a society where every disposable item has a positive environmental impact through ongoing research, collaboration, and a customer-centric approach, encouraging a worldwide culture of environmental responsibility and aware consumption.

VALUES

Our dedication to environmental sustainability has never wavered. Our commitment to minimizing our ecological footprint is fundamental to everything we do, and we aim to set an example in this regard. We think innovation has the ability to spur constructive change. We never stop looking for fresh and original ways to deal with environmental problems. We accept accountability for our deeds.

Biodegradable Bags Catalogue

Biodegradable Bags

BENEFITS

Non Hazardous/ Non Toxic

GreenScape products do not generate any toxic element after degradation

Sustainable & Eco-friendly

GreenScape products are 100% sustainable & eco-friendly alternative to plastic

Fast Decomposition

GreenScape products decompose fast supporting climate conditions

Less Energy & Water Usage

GreenScape products use less water and less energy in production in comparison with plastic and paper.

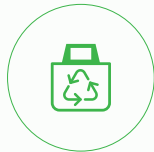

Degradation Time

Average degradation time of GreenScape products is 60 to 180 days

Less Carbon Footprint

GreenScape products have lesser ecological footprint than paper and plastic, which helps in climate change mitigation

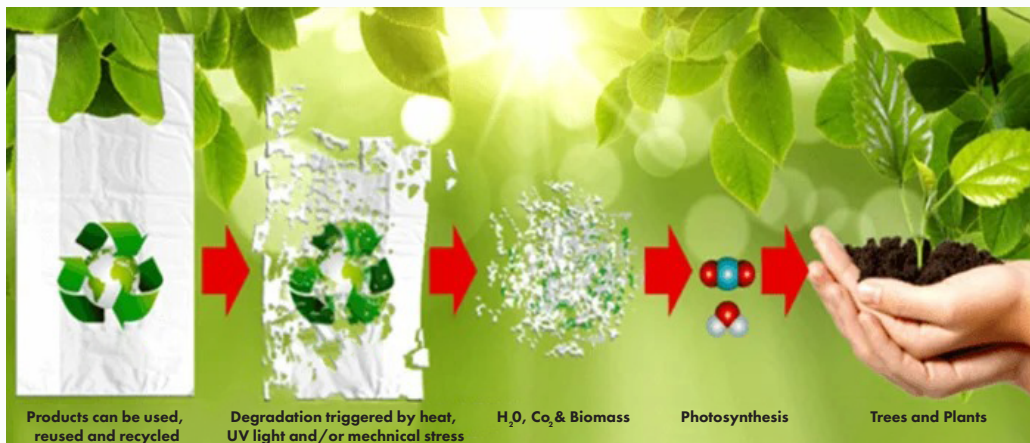

Excellent Load Bearing Capacity

GreenScape products have great load bearing capacity

Financial Benefits

Reduces waste management cost to municipality and reduce land usage

FEATURES

No Thickness Restrictions

Flexible & Leak Proof

Food for Plants once Composted

Different Sizes, Thickness & Colors Available

Not Under Plastic Ban

Made from Plant Extracts
